Helpful Information:

The Blind River Rotary Club successfully fundraised its goal to bring this project to fruition. This gazebo will ensure all members of our community can enjoy Sellers Beach in an accessible setting that promotes sun-safety. The municipality has successfully received funding to renovate the restroom building at this site. It will be transformed into a universal restroom with updated fixtures. In addition, the exterior will be updated to suit the theme of our Community Improvement Program, while achieving goals of The Strategic Economic Development Plan. This rejuvenated space will allow all community members feeling the effects of pandemic-related isolation to access an affordable and inclusive outdoor area.

These projects ensure Blind River progresses toward being a truly inclusive community. We are proud to present this worthwhile initiative that truly embraces Rotary's motto of "service above self".
